# 10 African OA Principles

[africanarxiv.org/african-principles-for-open-access-in-scholarly-communication](https://africanarxiv.org/african-principles-for-open-access-in-scholarly-communication)

- 1) Academic Research and knowledge from and about Africa should be **freely available** to all who wish to access, use or reuse it while at the same time being **protected from misuse and misappropriation.**

Access 2  
Perspectives

# The Challenges

Language barriers

Low visibility of African scholarly output internationally

Underrepresented in international research networks

Restricted access to research funding

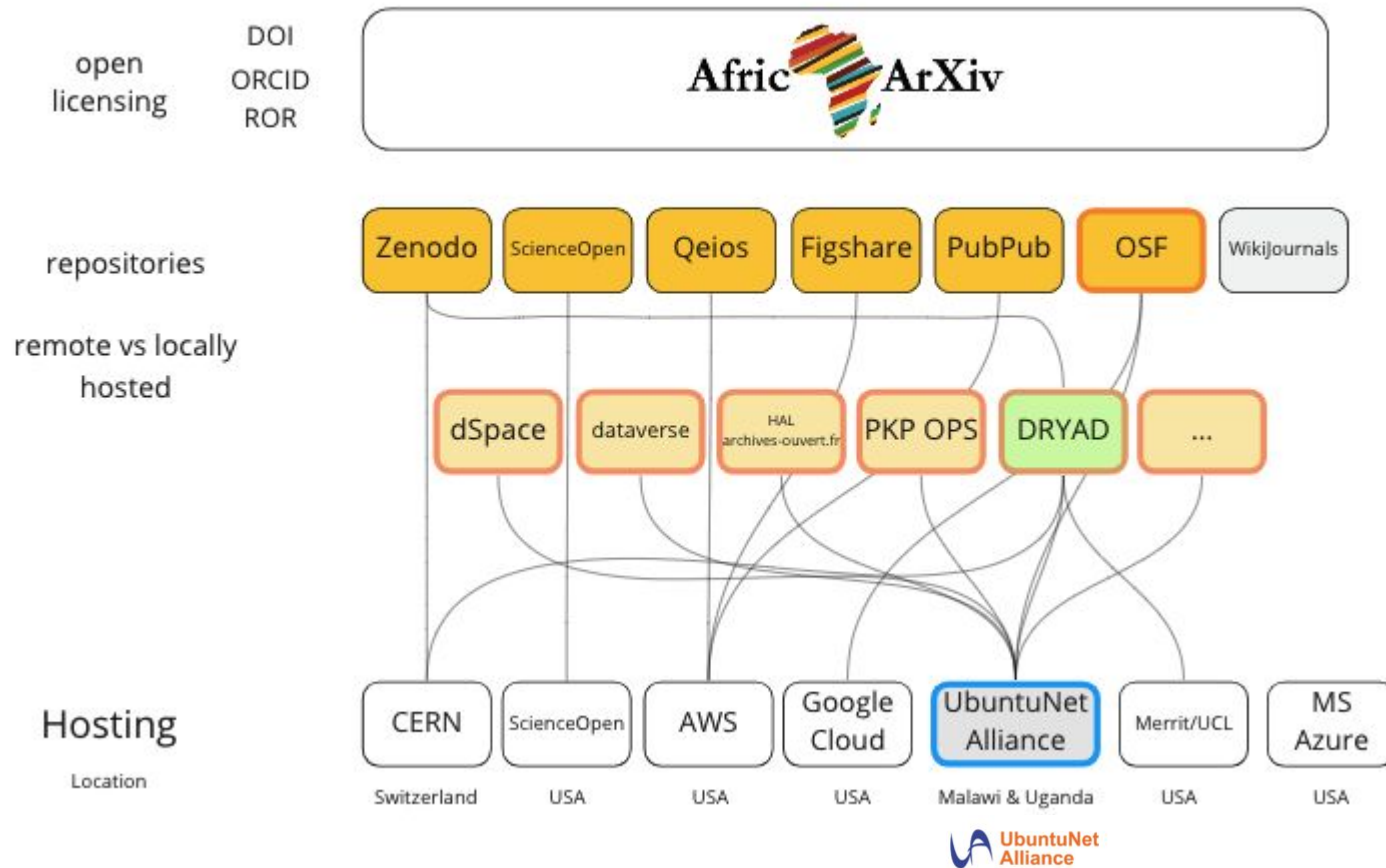

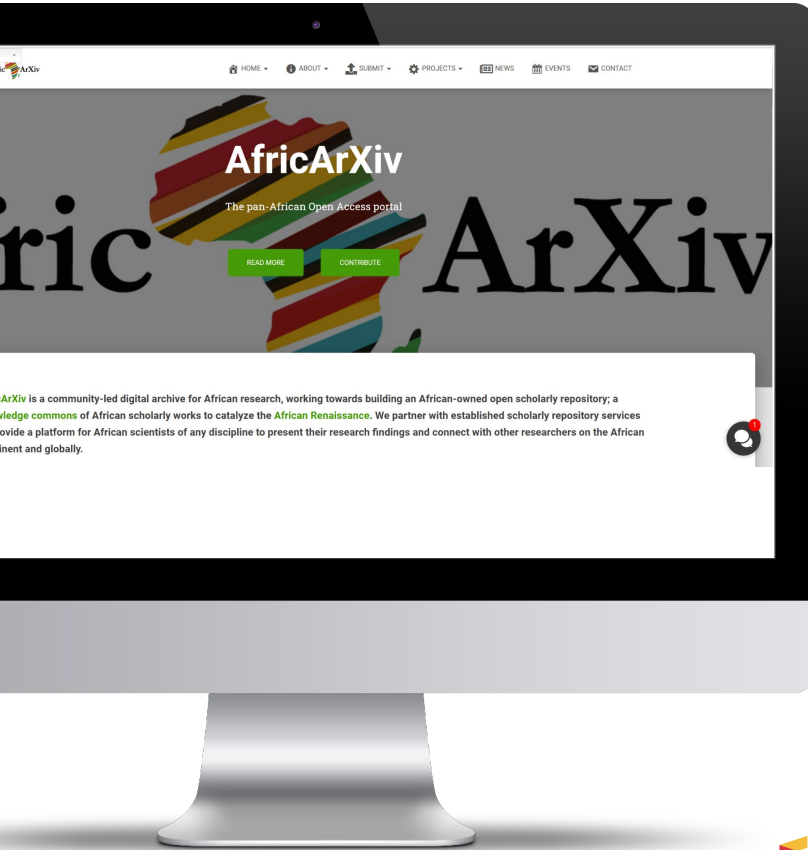

# The Solution

Utilising existing digital scholarly infrastructure for research dissemination

# Setting up a decentralised scholarly archiving infrastructure

## Submission of Research items

- from researchers working in and about Africa

## Submission Moderation

- checkpoints for quality assurance

## Discoverability

- assigning a DOI to each submitted item
- linked to the researchers ORCID ID
- indexing in scholarly search engines

# Benefits for Researchers + Publishers + Libraries

## Reputation Building

- + raising the profile of African researchers
- + worldwide online visibility

## Networking & Capacity building

- + trainings and webinars on scholarly publishing
- + with researchers across Africa and worldwide

## Discoverability of research output

- + indexing of shared research items
- + assigning DOIs
- + open licensing

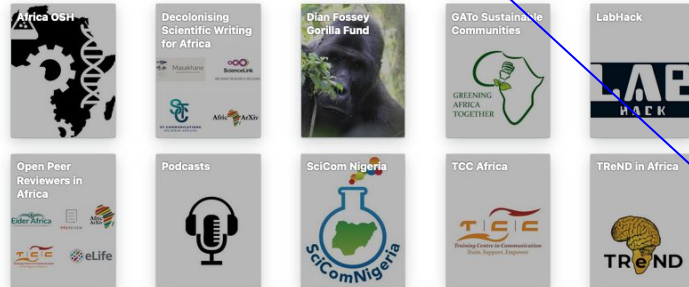

AfricArXiv is a community-led digital archive for African research communication. We provide a platform to upload and showcase research manuscripts, research reports, datasets, presentations, posters, and other research outputs. By enhancing the visibility of African research, we foster discoverability and collaboration opportunities for African scientists on the continent as well as globally.

# Open Access and Health in Africa

- Increase reliability and reproducibility of scientific results ([Besancon et al. 2021](#))
- Making all scholarly communications freely available e.g COVID-19

# Way forward

## Establishing local hosting of the AfricArXiv submission portal

- + ensuring physical ownership and curation of research data to African stakeholders
- + utilizing open-source package/s (PKP/OPS - COS/OSF - InvenioRDM - ...)

## Facilitating the setup of cloud-based University Presses

- + Establishing African University Presses and thereby empowering their institutions
- + Following the JISC University Press Toolkit

Guide

### New university press toolkit

Supporting and giving guidance to new university presses and library-led publishing ventures.

## Fostering community-based publishing workflows and quality assessments

- + preprint to journal article aka post publishing quality assurance
- + Community based Open Peer Review
- + supporting African publishing institutions and the wider ecosystem in the region
